**ArcSource Consulting Inc. has been named
in the MSPmentor 501 Global Edition**

**Seventh Annual Report Identifies
World's Top 501 Managed Service Providers (MSPs)**

BERKELEY, Calif. (March 13, 2014) - ArcSource Consulting Inc. has surfaced on Nine Lives Media's seventh-annual MSPmentor 501 Global Edition (<http://www.mspmentor.net/top501>), a distinguished list and report identifying the world's top 501 managed service providers (MSPs).

The MSPmentor 501 report is based on data from MSPmentor's global online survey, conducted October - December 2013. The report recognizes top managed service providers based on a range of metrics, including annual managed services revenue growth, revenue per employee, managed services offered and customer devices managed.

"We are very honored to make it onto the MSPmentor 501 list for the first time," said Dave Monk, CEO of ArcSource. "The ArcSource team has worked very hard on the transformation of our managed service offering in the last two years in order to better serve our clients."

ArcSource's Managed Care Services provide the highest level of support, rock solid infrastructure, and expert strategic advice, all available for a fixed monthly fee—resulting in lower IT costs, improved reliability, and higher employee productivity.

"MSPmentor congratulates ArcSource on this unique honor," said Amy Katz, president of Nine Lives Media, a Penton business. "Qualifying for our MSPmentor 501 Global Edition puts ArcSource in rare company."

MSPs on this year's global 501 list lifted their combined annual recurring revenues \$2.61 billion, continuing seven straight years of strong growth. Together, those MSPs now manage more than 700,000 servers, according to Jessica Davis, managing editor, MSPmentor.

In addition to making MSPmentor's 501 Global Edition list, ArcSource also appeared in the 100 Small Business Edition List, ranking #44 among the top 100 MSPs with 10 employees or less.

ABOUT ARCSOURCE
